because of the absence of Sens

There is nothing in sight to-day for the House save long monotonous roll cells on uncontested benate and House bills on their third reading.

The military establishment of the State won a victory yesterday in the Committee on Finance of the House, when by a vote of 7 to 2, the Spessard bill cutting the military appropriation in half was passed by Indefinitely. This ends the matter so far as the committee is concerned, although it is possible Mr. Spessard may endeavor to discharge the committee.

Such an effort falled yesterday when Mr. Mencure tried to get the full train Mr. Mencure tried to get the

West Virginia on the State debt litiga-tion shall be spent for pensions, the State borrowing money on the suppo-sition that it will recover.

### HOUSE

Pleasant ceremonies connected with the sclebration of the birthday of Reading Clerk Harry B. Owen were had in she House seemed to be harded to be made to be a unanimous vote.

Falls to Discharge Committee.

Mr. Montague offered to submit the proposition to the people. On a roll call, the amendment was agreed to by a unanimous vote.

Falls to Discharge Committee.

# THE PANAMA EXHIBITION.

THE PANAMA EXHIBITION.

The concise and foreible address of ex-Governor Gillette to the two houses of the Legislature last evening may bear fruit in an appropriation for a Virginia exhibit at the Panama Exposition in San Francisco in 1915. Yet, among the financiers in the General Assembly the matter is not being taken very seriously. The demands now being made upon the State Trensury, and its somewhat depleted condition, make it unlikely that any considerable exposition at this session.

A bill is pending in the House of Delegates which propueses an appropriation of \$75,000 for that object. It is not believed that over a third of that amount will be nonsidered necessary, and a part of that may be appropriated at this session and the remainder at the sonsion of 1914. It is barely possible that this Legislature may leave the whole matter to be dealt with by the next.

It would be better, no doubt, if the State is to have an exhibit at the exposition at all, that this Legislature should give its sanction to the project should give its sanction to the project should give its sanction to the project sand supply a sufficient fund to make all necessary preliminary arrangements. It is due to California that all of the States intending to exhibit at the son Francisco should let it be known at once. Virginia's example would be THE APPROPRIATION BILL.

### Here and There in the Legislature

Over the protest of the member from the county where the liquor dispensary at Meherrin is situated—Prince Edward—the House Committee on Counties. Cities and Towns on yesterday reported favorably a bill offored by Mr. Adams, of Charlotte, and Mr. Love, of Lunenburg, to repeal the act allowing the people to vote on the question, thus abolishing the institution. Citizens of the neighborhood told how the dispensary is situated within two miles of Charlotte county and within torty feet of Lunenburg, these counties getting many of the drunks and none of the revenue.

But, the dispensary having been established by a vote of the people of Leigh district, it is not believed the House will abolish it by legislative action over the opposition of W. H. Ewing, the local representative. Mr. Ewing, the local representative. Mr. Ewing said the dispensary conditions were better than the saloons, and the blind tigers of dryer days.

the distribution of offices at the Capitol "shall be as follows:" The rest of the bill is three sheets of paper, as bink as Modred's shield. To is supposed the committee will do the rest, possibly going no farther than ratifying the recent exchange of offices between Clerk John W. Williams and the Department of Public Instruction.

# **Ground Limestone**

Do you know that the State's great power and influence has already been used to force the railroads to give such rates on ground limestons that it will destroy its competitor, burned agricultural lime?

Do you believe the railroads should be allowed to make discriminatory freight rates in favor of a commodity the State preposes to manufacture against parallel commodities its own chartered corporations are manufacturing?

Do you know that the powerful State influence that forced she railroads to make a low rate on ground limestone refuses positively to use its influence for lowering freight rates on burned agricultural lime or other fertilizers? Is this discrimination right?

### Can Cancer Be Cured? IT CAN

The record of the Kellam Hospital is without parallel in history, having cured to stay cured permanently, without the use of the knife or X-ray, over 90 per cent, of the many hundreds of sufferers from cancer which it has treated during the past afteen years.
